EVERYBODY OR NOBODY.

The outbreak of lawlessness, which spent with his family has returned to culminated in the wanton deeds at his work and is assisting Rev. S. L. Princeton has been echoed all over C. Coward in a meeting at Caseyville. the country; everwhere it has been denounced and everywhere the harm that must result has been instantly

recognized. But while this is true it is true also that the proper appreciation of that harm has less general, and that formerly his home, but he will leave to visit her mother, Mrs. Green, of statements have been made at once misleading and mischievous. It is proper that these should be corrected

. ve made clear. the insurance companies. It has been stated with a good deal of insistence that the companies are discriminating between the parties or corporation handling tobacco; this is not the case. Some companies, domestic and foreign, yielping to panic have retired from the field; they have cancelled their risksy as was their right, and will not accept tobacco in rehandling houses, others, less timorous, have reduced their lines, - not for one, but for all. But in no case does discrimination exist and we can state on the authority of an agen who recently appeared before the "field men" of the insurance corporations doing business in Kentucky that where they buy tobacco at all, theytreat trusts, independent and farmers precisely alike, and will

continue so to do. Either they will insure everybody or nobody.-Henderson Journal.
